WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of a Professor Stone) in combining the Oil and Lime, in a way that the taste of the Oil, which ... nausea to invalids generally, is entirely ... and the article can be taken by the most delicate ... with pleasure. And as regards the benefits ... this article over the clear oil, the following ... Prof. Stone is sufficient to convince the ... The young lady was twenty-four ... of age.

"Her disease was one of unmixed phthisis which ... expected to terminate in the course of a few months fatally. ... the upper part of both her lungs were filled with tubercles, and in some places were beginning to soften. The case was evidently hopeless. The treatment of Cod Liver Oil with phosphate of lime ... then administered with the oil, and the result, as in the case of many others, was soon apparent. CAUTION.—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner. Admirable Invention.
PATENT SELF HEATING
SMOOTHING IRON.

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and other modern implements, but females have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor and despatch, one cent's worth of dry charcoal supplying fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

PROFESSOR ALEX. C. BARRY'S
TRICOPHEROUS,
or Medicated Compound,
FOR beautifying, improving, and preserving the Hair, curing cuts, bruises, burns, stings, rheumatism and all affections of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement, but as the thousands who purchase the article and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 910,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain unvarnished tale is a better comment on the value of the article than any that its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy, for cuts, bruises, burns, skin diseases, &c.—it would not be thus so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poor can avail themselves of its benefits.

Sold in large bottles [price 25 cents] at wholesale and retail at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

SEWING MACHINE!
Secured by Two Distinct Patents!

THESE extraordinary Machines have had numerous diplomas and medals awarded to them as the best sewing machines ever devised. They now form one of the most attractive features of the Great Exhibition at the Crystal Palace in New York.

The proprietors having perfected their great manufactory in New York, are now able to produce the Machines at a cheaper rate, and have determined to give the benefit to the public by reducing the price $25. Hereafter these unrivalled Machines will be sold at either of our regular offices for

$100 Cash, without deduction or discount.

Of the admirable qualities of these Machines for all the work of the Clothier, Tailor, Shoe Manufacturer, Saddler, Carriage Trimmer, Cap Maker and Corset Maker, it is unnecessary to speak—the character of the machines for these branches of business is established, and they are known and admitted to be the most perfect instruments for the purpose ever devised. The clear profit on each machine is from $500 to $1000 a year, depending on the fineness and difficulty of the work done. We desire to call the particular attention of Shirt and Collar manufacturers to our machine for stitching fine linen and cotton goods. TESTIMONIALS.
The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

Boston, Jan 3, 1836.
Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of skill in workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.
JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us for twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business and the large number of individuals whom he has relieved in a variety of cases render him, in our opinion, equal, if not superior to any manufacturer of the article. His father, Dea. Gideon Foster of Charlestown, was master of the Pair business in that town for upwards of twenty four years, during which period Mr. Foster availed himself of the opportunity and made application of his talents in a great variety of cases, with great success, some of which were of a very complicated and distressing character.
It is well known to all who have occasion to wear a Truss that its great excellence consists in its adaptation to the body at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as efficiently and at the same time comfortably to retain the rupture.
Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificate of Dr. J. C. Warren and other eminent surgeons which he has shown to us fully sustains the opinion we here express.

TUESDAY, SEPT. 13, 1853.

THE ELECTION.

The vote in this city was very light, no party working to bring in voters with carriages, except the Pilsbury party—they had their horses, waggons, and hay carts out, in a race for voters. There was very little excitement, however, the friends of the Maine law relying upon the justness of their cause even against a political party nomination.

The result will be seen in the tables below, which we shall fill up as the facts reach us by express and by telegraph, which have not been received up to this present writing

The election in this city passed off very quietly and good naturedly, every body expecting that there would be no choice of Governor by the people, and that the friends of the Maine law would secure a majority of the Legislature The returns will show whether these expectations are realised.

On the question of Representatives to the Legislature, there was some little uneasiness that two members of the legal profession should be run on the ticket, and nothing probably, but the popularity and well known ability of Mr. Ingersoll, the new candidate, secured his election.

Massachusetts Lands in Maine.

In a few days the legislature of Maine is to assemble for the purpose of determining the question whether Maine shall purchase the balance of the lands within her territory, now owned by Massachusetts There is no obligation on the part of Maine to purchase, aside from the simple question of dollars and cents—the merest matter of profit and loss—a pecuniary affair and that only. The course of Massachusetts in the disposal of her lands in Maine, and in looking out sharply for her own interest, has taken away from the question every other feature, and left it, as we have stated simply a question of Dollars and cents

The purchase of these lands adds not one acre or one rod to the territorial limits of Maine, nor increases her own jurisdiction.

The question then is narrowed down precisely to this, can Maine buy these lands for a less sum than she can sell them for?

How stands the record? Massachusetts offered a large balance in the market, in several parcels, timber lands and settling lands, and asked an offer.

The Governor of Maine and his Council, acting under the best information in the State, the records field books, maps and plans in the Land office, and the knowledge and experience of the Land officers of the State, &c. with a strong desire to make the purchase in order to avoid joint ownership with individuals, which would make it necessary to maintain an expensive police to guard the property of Maine in the timber lands, made a generous and even extravagant offer for the whole lands, in the sum of $409,000 This was above their estimated value. No person and no company who estimated upon the value of the lands, carried the amount up to that sum.

It became known, how we will not say, that the State had determined, by its Executive, to offer that sum conditionally. Other parties who wished to purchase, but whose estimates did not reach that amount, reviewed their estimates, and in hope of getting the control of desirable timber, enlarged their margin and the following sums were offered :

The Governor of Maine, $400,000. Another party, $406,000, another party, 411,000. These were the actual bids, and if accepted would have been paid. Another party combined for the purpose of securing the control of timber, of *timber* be it remembered, and under a willingness to pocket a loss, even, on the purchase, for this control, and as a sort of extinguisher to all other competitors, offered $505,000 But still another party, drawing a longer bow and determined to defeat the sale and trust to management and luck, offered $666,000.

The sale did not take place. But by some sort of legerdemain, McCrillis & Clark succeeded in making the purchase of all the timber in forty-two townships, and a hundred years in which to cut it.

By this sale the best of all the timber lands owned by Massachusetts were sold, and the interest of Maine in the lands in connection was so greatly hazarded by this new joint ownership that it was thought best to sell them, and the same parties became, for the most part, the purchasers. For the best of the lands, and about all that has any money making timber value, Massachusetts received $260,000. And yet Massachusetts now demands of Maine, as the price of all the lands, a sum sufficient to make up the bogus offer of $666,000, together with the interest on the sum, less the amount paid by McCrillis & Clark. This is greatly more than they are worth, and ought not to be paid. The trade ought not to be thought of. Nothing can be made out of it. The money can never be realised.

But, [illegible] the money [illegible] [illegible] [illegible]

sufficient objection against the purchase that the public lands have been long enough a cause of contention, and the operations of the Land office have had a very great influence on the politics of the State—have been the source of favoritism—have made a few men rich without giving a fair chance to capitalists and actual operators generally. These operations have not been such as that the mass of the people can desire them repeated and continued And when what land Maine now has, is fairly disposed of, the attention of the State and her people can be turned to something less corrupting, and more useful. Again, it is by no means certain that should Maine purchase these lands, at the exorbitant price charged for them, that a few managing and plausible men, eager to get the handling of large sums, the very sweating of which may make them rich, may not get up some scheme for public grants to aid some popular railroad or something of the kind and thus the whole amount be sunk in a genteel log rolling.

Indeed we understand that the Commissioners who have had this matter in charge, have not yet seen their way clear to recommend the purchase of these lands, as they certainly ought not, and we trust that the legislature will place its emphatic refusal to purchase upon their record The members of the legislature ought not to vote to purchase these lands unless they become satisfied that the value of them is much greater than the price demanded, and this they cannot do, for few men in the State know their value, and they all agree that the price is too large, and that Maine cannot purchase them, and take the charge of them, with the hope of ever getting the money back again A full investigation of this matter cannot fail to satisfy any friend of Maine, who has no expectations of personal gain to be promoted by the purchase, that the State should not purchase but that the whole matter should be speedily dismissed, and Massachusetts left to peddle out her fragments of land in her own way, and to her own liking.

We shall next examine the subject of purchasing the settling lands.

ANOTHER SHIP FOR CALIFORNIA

Our enterprising neighbors, Messrs A. & R. B Dunning, have made arrangements for fitting out to California the substantial and well appointed bark J. W Paige, expressly for the accommodation of passengers They have had some experience in this business, and are now enabled to meet all the wants and expectations of passengers, in the fitting and furnishing of the ship, and in every way providing for the safety, health and comfort of passengers.

The vessel is now at the wharf in this city and may be examined by any one desiring to go in her to the land of gold. Passengers who have gone by sailing ships, have arrived in California in good health, which is everything to them It takes a few months longer to reach California, but the expense is much less, and the risk of sickness altogether less than to hurry over the Isthmus, which has proved a grave to so many noble fellows

The J W. Paige is to be commanded by Capt. French, a thoroughly experienced navigator, a business man, and an agreeable and accomplished gentleman, who will devote himself to the success of the voyage, and to make it pleasant and agreeable to his passengers

We have no idea of advising any one to leave Maine for California, but quite the contrary—nevertheless there are those who wish to go and will go—there are families who wish to join husband and father, in that distant State, and to all such, it must be more agreeable to go with acquaintances and friends than with strangers, and much cheaper and safer to go by ship than in crowded steamers, and across the Isthmus. We can, to all such, cheerfully recommend the Messrs Dunning, as able and reliable men, who may be depended upon, and will discharge their duty with fidelity.

☞ The New York Tribune remarks, and the remarks have great force, that "a prominent vice of our time is the universal tendency toward filling responsible places with timorous, inoffensive negative, half-and-half men, whom nobody can be jealous of, because they are nobody and amount to nothing. Hence we have not for years been able to elect a great man to the Presidency, but have set aside our Clay, Webster, Calhoun, &c for—such as we have We think this game has been about run into the ground as to Presidents, but it is likely to flourish a long time with respect to Governors, congressmen, &c. Every body realizes the degeneracy—knows that we have poorer sticks in exalted stations, and feebler Congresses and Legislatures, than we had twenty or fifty years ago. By-and-by the people will be roused into a revolt, and will set to work to redress this evil in the only practicable way—by kicking over party platforms, laying finger to nose at regular nominations, and voting for men of genuine grit and stamina, even though they may not on every question of principle or policy accord with them. This is what we shall come to in the end—if the people are not now ready for it, we can wait. Perhaps it is best to let things run down as fast and as far as possible so that the rebound may be more prompt and effective."

☞ The services of young men and maidens older men and mothers, will be required today in the decoration of the City Hall for the Horticultural Exhibition to take place to-morrow and next day We trust there will be liberal gifts of cut flowers, those of the coarser and showy varieties, for decorating the hall. All this work will be required to-day.

Every member of the Society and our citizens, generally, should contribute to the exhibition, fruits, flowers, vegetables. Keep no specimens back, but let the show be full, and thus a fair representation be had of what is doing in the various gardens, fields, green houses and graperies, in the city.

Bangor expects every one to do his duty in this matter The duty is personal, but the result, the teaching the reputation of the thing, general, and not personal.

On Wednesday evening, S. L. Goodale, Esq. of Saco, will deliver an address, and we can promise, in advance, that it will be worth listening to. He will also exhibit specimens of [illegible] [illegible] this year.

AN INTEMPERANCE PICTURE.

DR. KNOWLES, at 22 West Market Square, has had a curious Picture of Intemperance exhibited at his chamber window all summer, that ought to have attracted the attention of "star gazers," and it may not be too late even now, for wonder seekers to raise their eyes above their heads and look at it, when they pass that way. *There* is an exhibition of the *legitimate* influence of Rum! that Neal Dow himself, will find it hard to beat, and if exhibited at any other place, might ere this, have gained some special notice. The Doctor being a new comer, and a friend of temperance, has at his window "a awful picter of human nater," before the passage of the Maine law! of course

☞ The dedication of the Union Street (Unitarian) Church, will take place on this evening This is the most elegant and costly church edifice in the city, and is a great ornament to the city, both on account of its fine architecture, and its commanding location.

Its grounds are ample, and by and by will form one of the best promenades or ornamental parks, in the city.

The interior of the church is finished in the most beautiful style, the ceiling painted in fresco, the pews circular and all uniformly linedy stuffed, cushioned and carpeted. The organ is a noble structure, and every thing is excellent harmony for a temple of worship.

D S Dickinson is reported in high quarters, as speaking freely adverse to the administration Breakers ahead!

Robert J Walker has declined the commissionership to China The truth was, Walker wanted white-washing, or indorsing and he has got it. He has been absorbed by the Pacific Railroad Company and other speculations, so that he could not go, if he would

Gen Cass has *not* been offered the mission to France The President is becoming parsimonious, and he will husband what little there is left of the spoils with the same tenacity with which a spendthrift holds on to his last shilling He must reserve something till the next meeting of Congress to buy in the disaffected, to trade with, and sustain the credit of his administration If, however, the old line democrats can be pacified, by sending Caleb Cushing out of the Cabinet and country, he will go minister to France Mark that.

NIAGARA FALLS, Sept 9th

This morning at about 8 o clock the remains of Table Rock fell, with a tremendous crash. The projection is now all gone No one is supposed to have been injured.

The Charleston Mercury is out in favor of the appointment of Gen Dix as Minister to France.

BANK OF ENGLAND —I have been making a most interesting and instructive visit to the Bank of England For admission into the interior of this remarkable building, to observe the operations of an institution that exerts more moral and political power than any sovereign in Europe, you must have an order from the Governor of the Bank, and this was given to me through the Barings, whose kindness, especially that of Mr Sturgis, I have constantly experienced The bank building occupies an irregular area of eight acres of ground, an edifice of no architectural beauty with not one window toward the streets, being lighted altogether from the roof or the enclosed areas The ordinary business department differs from those in our banks only in their extent, a thousand clerks being constantly on duty, and driven with business at that. But to form an adequate idea of what the bank is, we must penetrate its recesses, its vaults, and offices, where we shall see such operations as are not known in Wall street I was led on, presenting my card of admission, into a private room, where, after the delay of a few moments a messenger came and conducted me through the mighty and mysterious building Down we went in a room, where the notes of the bank received yesterday were now examined, compared with the entries on the books, and stored away The Bank of *England never issues the same note a second time* It receives in the ordinary course of business about £800,000 or $4,000,000 daily in notes; these are put up in parcels according to their denomination, boxed up with the date of their reception, and are kept ten years, at the expiration of which period they are taken out and ground up in the mill which I saw running, and made again into paper

If in course of those ten years any dispute in business or lawsuit should arise concerning the payment of any note, the bank can produce the identical bill To meet the demand for notes so constantly used up, the bank has its own paper makers, its own printers, its own engravers, all at work under the same roof, and it even makes the machinery by which the most of its own work is done A complicated but beautiful operation is a register extending from the printing offices to the banking offices, which marks every sheet of paper which is struck off from the press, so that the printers cannot print a single sheet of blank notes that is not recorded at the bank On the same principle of exactness a shaft is made to pass from one apartment to the other, connecting a clock in sixteen business wings of the establishment, and regulating them with such precision that the whole of them are always pointing to the same second of time

In another room was a machine exceedingly simple, for detecting light gold coins A row of them dropped one by one upon a spring scale; if the piece of gold was of the standard weight, the scale rose to a certain height, and the coin slid off upon one side into a box, if less than the standard it rose a little higher, and the coin slid off upon the other side. I asked the weigher what was the average number of light coins that came into his hands, and strangely enough, he said it was a question he was not allowed to answer.

The next room I entered was that in which the notes are deposited which are ready for issue. "We have thirty-two millions of pounds sterling in this room," the officer remarked to me; "will you take a little of it?" I told him it would be vastly agreeable—and he handed me a million sterling, (five millions of dollars) which I received with many thanks for his liberality; but he insisted on my depositing it with him again, as it would be hardly safe to carry so much money into the street. I very much fear that I shall never see that money again. In the vault beneath the floor was directed and the cashier counting the bags of gold [illegible] [illegible] [illegible] [illegible]

to realise the fables of Eastern wealth, and give the new and strong impressions of the magnitude of the business done here, and the influence of this one institution on the commerce of the world

REVOLUTIONARY WIDOWS.—The National Intelligencer says that "twenty-four hundred claims have been made upon the Department for pensions under the act of February 3, 1853 granting pensions to the widows of officers and soldiers of the Revolution who were married subsequent to the year 1800 When the law was enacted, it was generally supposed that there would not be more than three hundred claims in all"

Holloway's Pills, an Infallible Remedy for Liver Complaints, and Diseases of the Stomach—Copy of a letter from Mr Henry Woodward, of Richmond dated May 22, 1851 "To Professor Holloway,—Dear Sir—I suffered for many years from a most obstinate liver complaint, and although I tried various medicines prescribed by the most eminent medical men in different parts of the country, yet I could obtain no relief, and in despair I had recourse to your Pills, and it is with gratitude that I acknowledge they have been the means (under Divine Providence) of restoring me to a state of good health that I never could have anticipated

TAXES FOR 1853.

TREASURER AND COLLECTOR'S NOTICE

The Assessors of the city of Bangor have committed to me the Tax Bills for the year 1853 under date of August 22d, 1853 and by a vote of the city Council I am authorized to abate 6 per cent. on Taxes paid within three month from date.

N H DILLINGHAM
Treasurer and Collector

Bangor, Aug 23, 1853 1 m a25

The following is from the principal member of the wealthy and highly respectable house of Messrs Vorie & Bro, of this city and presents one of the MOST WONDERFUL CURES in the annals of medical history

Mr H G Farrell—Dear Sir; Actuated by a sense of gratefulness I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it to the ... The limbs became so rigid that nothing ... patient, the flesh turned black and cold and entirely deprived of feeling, the eyes fixed partly closed and altogether blind following this was deafness ... and ... the spine became contracted and so curved that when ... on its back the head and heels only touched. Indeed, the child presented every appearance of being dead ... on the attack the family physician was called ... for three weeks he labored to restore it to feeling, but all in vain, though it was blistered and dozen times ... n beneficent liniments applied A consultation of physicians was then held but to no purpose and the case was then brought before the Medical Society, but nothing could be suggested which had not already been done ... the doctor then told me he could ... nothing more ... then commenced applying your Liniment freely over the entire length of the spine and you may imagine a ... when after a few applications returning animation was apparent, and it rapidly recovered with the exception of the sight which did not become perfect for nearly a month The child is now healthy and robust as can be. Five other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered

HENRY G C ELAND

Peoria, March 1, 1851

A HARD LUMP ON A HORSES BREAST

Mr H G Farrell I have used your Arabian Liniment with gratification in several cases, the most remarkable of which was a large lump that appeared on my horses breast It was very hard appearing to be hard as the ... tried for nearly a year, when I applied your Liniment one bottle of which entirely cured it I can recommend it as the best Liniment I ever used JOHN DAWL

Peoria, Feb 25, 1846

LOOK OUT FOR COUNTERFEITS,

The public are cautioned against another counterfeit which is lately made its appearance, called W B Farrell's Arabian Liniment the most dangerous of all the counterfeits because his having the name of Farrell many will buy it in good faith without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its ill effects

The genuine article is manufactured only by H G Farrell, sole inventor and proprietor and wholesale druggist No 17 Main Street Peoria Illinois to whom all applications for Agencies must be addressed Be sure you get it with the letters H. G before Farrells thus—H G FARRELL'S—and his signature on the wrapper all others are counterfeits

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor Also by R F Kinsell Oldtown French & Hamilton Dexter Geo Parmer Ellsworth P O Flaherty, Houlton And by regularly authorized agents throughout the United States

☞ Price 25 and 50 cents, and $1 per bottle.

John Bunyan's Immortal Allegory

PROBABLY no book, save the Bible has been so extensively read as Bunyan's inimitable allegory

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations Art has lent her attractions in nearly all the forms of illustration, from the rough *Wood Cut* to the exquisite *Steel Engraving* But to the middle of the nineteenth century, and to an American clergyman, are we indebted for the *only pictorial conception* of this immortal work

The novel and sublime idea of embodying the *entire story* and transferring the same to a *single picture* showing the wanderings of Christian from the City of Destruction to the Celestial City, presenting at one view to the eye the varied scenes through which he passed, originated with Rev DANIEL WIGHT of Massachusetts His truly original and beautiful conception was reduced to a most elegant design by HAMMATT BILLINGS, and from this design JOSEPH ANDREWS the distinguished historical engraver has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius taste and skill

The picture is now ready and will be offered at the Bookstore of the Publishers and by Agents duly appointed by the Publishers

BURGLAR and FIRE PROOF

SAFES!

A FEW of these celebrated Safes have arrived from New York, and those who are in want of a superior article which has been severely tested for the last ten years, in every county, are invited to call and examine them Read what the *New York Press* say of them in regard to the late great fire in New York Further comment is unnecessary

[From the Journal of Commerce, of August 27th]

"Messrs B F Pond & Hitchcock, of 56 Water street oil merchants, inform us that their Safe, (one of McFarland's Fire Proof) at the great fire of the Pearl-st House although exposed for thirteen hours to the combined effects of burning Rosin and other Oils and a broken Gas Pipe directly underneath it preserved their books and papers in the most perfect order They were not injured in the least manner."

[From the New York Evening Mirror, of Aug 27th.]

McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE —Looking at the ruins of this great fire yesterday, we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order One of them in particular deserves especial notice It belonged to Messrs Pond and Hitchcock, oil merchants, No 56 Water street and was exposed to the very hottest part of the fire being covered with burning oil and spirits and directly under a broken gas pipe from which the gas was escaping in large quantities and producing an intense heat It remained in this fiery furnace for thirteen hours and we are informed by Mr Pond, the owner that, when opened his books and papers were found to be in a perfect state of preservation not even being scorched, and hardly bearing the smell of fire thus proving itself a perfect salamander Every merchant should examine them and convince himself of their fire-proof qualities, as some half dozen others of the same make were in the fire, and every one preserved its contents from the least damage

[From the New York Tribune of August 30th]

The reputation of the celebrated Fire Proof Safes have lost nothing at the last great fires as usual preserving their contents uninjured, and saving many thousands of dollars for their owners These safes have built for themselves a colloss reputation and are adding to it at every fire Mc Farland's motto is "Excelsior"

[From the New York Herald of Aug 25th.]

Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire is the Safe which can now be seen at the ruins of the great fire on Tuesday night at the Pearl st House, where it was exposed in the oil store of Messrs Pond & Hitchcock No 56 Water st for thirteen hours to the combined effects of burning oil and spirits Books and papers inside were not even scorched

☞These Safes are for sale at No 4 West Market Square, Bangor

ATWOOD'S ALCOHOL,

PATENTED AUGUST 23d, 1853.

THE undersigned having purchased the exclusive right to manufacture this Alcohol for a portion of the United States, is prepared to furnish it to the trade generally He invites the attention of dealers to the following certificate

JOHN T HEARD

Boston, Sept, 3, 1853 No 1 Long Wharf

We have made a chemical examination of the Alcohol manufactured in the large way, by the new process invented by Mr Luther Atwood which has for its object the removal of fusil oil and other oderous bodies, which exist in common Alcohol

Our comparisons were made with the best "Cologne Alcohol, by exposing the samples to the action of chemical agents, and the result was, that while we found 'Cologne Alcohol' to be impure, the Alcohol of Mr Atwood's process was perfectly free from the oils and other bodies, and more nearly pure than any other Alcohol manufactured in the large way

It is admirably adapted to medecinal and pharmaceutical purposes the preparation of perfumery, and for other uses in which an inodorous alcohol is required

In the manufacture of Chloroform and Ethers, it has a special value as its freedom from oils and other alcohols prevents the formation of the other pared products and foreign compounds which commonly exists in Chloroform and Ethers, as now found in the market

We regard Mr Atwood's method as an important improvement in the manufacture of Alcohol.

Great Excitement!

Among Carriage Makers.

THE subscribers have purchased the right to make, use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis Waldo Hancock Washington and Aroostook The advantages of the above Coupling over the old method of connecting the main part of the Carriage with the front part is such that it must come into general use when it is properly understood High forward wheels can be used, and we get rid of the galling irons, as the wheels do not strike the body and the carriage turns in a very small compass the hind wheels not describing more than 4 to 6 feet circle It is perfectly simple, and not so liable to get out of order as the old method Those who have used the above are fully satisfied of its utility, as certificates below show. It can be attached to old carriages at a small expense and we are prepared to sell the right for shops, towns and would sell a part of the above named Counties at such a rate that any smart man with a small capital could realize a great profit from the sale of the above Any person wishing information will receive immediate attention at our place of business, or by dropping us a line by mail, post paid

DR. MORSE'S INVIGORATING CORDIAL.

FOR GENITAL DEBILITY IMPOTENCY, INCONTINANCE OR NOCTURNAL EMISSIONS &c. The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude* and *General Prostration*, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years renders it the most valuable preparation ever discovered In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections DEPRESSION EXCITEMENT incapacity to study or business, loss of MEMORY CONFUSION, thoughts of self Destruction, fear of insanity &c. It will restore the appetite renew the health of those who have destroyed it by Sensual Excess, or evil practices. It has been said, by some that these disorders, emissions &c were incurable. This however is not the fact

DR MORSE'S INVIGORATING CORDIAL, has and is constantly curing these complaints relieving the mental and bodily capacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show

Dr. Woodward of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus, — It gives me pleasure to inform you that one of my patients while in Boston procured some of your Cordial He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week, When he applied to me, says Dr W, I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in those cases in the hospital but they had no effect In the meantime he purchased some of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend whenever an opportunity occurs"

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cure out of the question and the proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidently obtained but is firmly based upon its positive and apparently miraculous virtues In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated given their sanction to any other preparation for the above complaints It has, in many violent and desperate cases effected radical cures after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is— I had heard your Cordial highly spoken of but was one of the incredulous in regard to its merits having tried various medicines sold for the same purpose, (different Sarsaparillas) without deriving any benefit I had almost given up all hope of obtaining relief when I purchased some of your Cordial I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks since. I am satisfied that half a dozen bottles I took will cure me,

Another says—'I had consulted several distinguished physicians. Some said I could not be cured others prescribed this thing and that, but I found no relief until I procured some of your Cordial I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had Why had I not heard of it before? It would have saved me much expense, besides years of mental and bodily suffering

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations which its unrivalled excellence, fame and popularity, have brought into the market. It will not hurt the most delicate Female but is good Beware of all other Cordials, &c., (and try only this.)

NOTICE. Persons conscious of physical inability from causes above name I may confidentially consult Dr Morse personally or by letter, (post paid) at his office 78 Sudbury street Boston The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address

Dr M is prepared to warrant a perfect cure in every case or take no pay

Prepared by M Morse M. D., New York city

It is put up in pint bottles, with the words Dr. Morse's Vigorating Cordial, blown in the glass Price $3 per bottle; 2 bottles for $5 bottles $12, and $24 per dozen

---

To the readers of the Whig.

Will you read the Truth.

A MEDICINE must have merit, and great merit too to stand the test of public opinion No art of puffing can galvanise a worthless article so as to keep it alive as a *good medicine* it be not really so

A good medicine will live become popular, and extend its sales year after year in spite of opposition The people readily find out its virtues, and its fame passes from mouth to mouth with a rapidity than newspapers can spread it A living witness testifying to the cure that a medicine has made for him is of far more service than any newspaper advertising

In proof of what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE and its effects Its praise is in the mouths of multitudes The best men in our country give their testimony to its wonderful cures Among them we name Hon Henry Clay, Hon Richard M Johnson, Vice President of the United States, with hundreds of others Capt Thomas Cannot—brother to the celebrated physician of the Emperor of France—was cured by it of a disease of seven years' standing after the skill of the doctors of Europe and America had failed

In the United States Navy it is taken with great success several officers being cured by it, officers of the Department, Washington speak of its wonderful cures

In fact the rich and the poor, young and old in every place, in the city and country find the same success after its use

HAMPTON'S VEGETABLE TINCTURE is purely vegetable, and warranted free from all mineral substances This Tincture by its mild pleasant and safe action on the stomach liver kidneys, lungs, and the nervous system cures Dyspepsia Liver Complaint Diseases of the Urinary Organs Coughs Asthma Bronchial Affections Consumption, Scrofula King's Evil Worms, Rheumatism Gout, Neuralgia St Vitus Dance Fits Nervous Affections generally Fistula, Piles, Bowel Complaints with all diseases arising from impure blood As a remedy for the various derangements of the female system, it seems to have no superior

All What we ask of the public, is introducing this valuable medicine is to throw aside their prejudice and give it a fair trial we shall publish in this paper, from time to time testimony from persons whose reputation is known throughout the United States and who have been entirely cured when other medicines have failed It is no *humbug*, and the public will be satisfied that what we say is TRUE after a fair trial

How the Discovery of the Vegetable Tincture was made.

DR HAMPTON now in his 77th year was early in life much reduced by disease, that spent much of his living in medical advice and grew no better but worse, when finding that none of the mineral medicines could reach his case, he came to himself, and thought why should I die with his case when the Creator has provided in his vegetable kingdom that which will make me whole again? I will go and search out the roots and herbs which I have seen the Indians and the early pioneers give for the cure of disease I will so compound them so increase or decrease the quantity Search until I get such a medicine as shall cure me of my disease The Doctor carried out his noble resolution, brought to his aid the experience of the RED MAN and all others from whom anything could be learned of the healing powers of the roots of the vegetable kingdom In a short time, as by magic, the Doctor was cured of his disease The fame thereof spread abroad, his neighbors of far and near for this wonderful discovery which was freely given to all and all partook with the same success until the demand became so great that the Doctor could not in justice to himself and without great pecuniary loss, supply the demand gratis which induced him reluctantly by the advice of his friends to put a small price on his Vegetable tincture which was cheerfully paid, and considered not small indeed to the amount of good received by those who took his medicine—the most wonderful discovery in the healing art of the age.

The world cannot produce Stronger Evidence Than this kindly handed to us by Mr Stockbridge, Esq of the Fountain Hotel Eng Street a gentleman extensively and favorably known The writer of the letter, Capt Canot is the brother of the celebrated physician to Louis Napoleon President of the French Republic Numerous of our most respectable citizens will give equal testimony testimonial by [illegible]

Hampton's Vegetable Tincture

It is a most certain cure for Dyspepsia Scrofula Liver Complaint, &c and all diseases from impure blood

BALTIMORE, June 4 1851

Mr Stockbridge, of the Fountain Hotel, Light st, Balt

Dear Sir—Being on the point of leaving the city I avail myself of a few idle moments to thank you kindly for the medicine you sent me and which has restored me to the use of my limbs I beg you to send me four bottles more to carry on my voyage Since I had the fortune to find Dr Hampton's Vegetable Tincture my confidence is so strong that, in gratitude to the proprietor of the medicine I beg you to procure for me three of them and induce them to make it more public It is known as a sure Rheumatic cure Having failed on me, on the 15th of April last and been much prostrated on my bed useless in all my limbs you can appreciate nearly as well as myself the prompt relief I received from Dr Hampton's Tincture and I am positive had it not been for your strong and forcible recommendations I should still have been in bed

It is really a pity this specific should not be approved by medical men and like all patent drugs, it should suffer the imputation the press generally give to such preparations I myself who was in a way opposed to a patent specific took the medicine with reluctance, and without confidence in it, and it was only through your disinterested friendly recommendation and my critical situation that induced me to try this really benefit al Vegetable Tincture

You may inform Messrs Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr Hampton's Vegetable Tincture, as it has cured me, in five weeks of a chronic inflammation of Rheumatism, contracted under tropical climates and of 7 years vertical duration I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance

I have been under the treatment of several physicians in London and Paris without any apparent benefit, also, while in New York having tried the Thompsonian and Homœopathic remedies after having been tormented with galvanic batteries, cold and aromatic Baths and hundreds of internal and external remedies, all to no effect, I am so far, cured by this Hampton's Vegetable Tincture only Therefore my dear sir, accept of the assurance of my gratitude, and believe me your well wisher,

Cure of Consumption Neuralgia Pain in Side &c

BALTIMORE, May 1 1852

Messrs Mortimer & Mowbray —Gentlemen—It is with pleasure I can testify to the great healing powers of Hampton's Vegetable Tincture My wife had been afflicted for three years, laboring under a constant hacking cough with a most violent pain in the right side neuralgia of the head, and dimness of sight, very little rest day or night, and much emaciation and to all appearances a rapid consumption inevitable We had the most eminent physician in Annapolis but this medicine did not give her any relief at all but growing worse it any change in the least, and having read one of your pamphlets in July last she concluded to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better, her appetite improved her skin became quite clear coughs, pains neuralgia, &c entirely left her and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of excellent health

Respectfully, EDWARD SANDS,

PORTSMOUTH, Va Aug 18, 1851

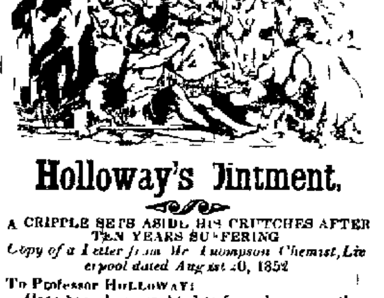

Mr E Bouch—Dear Sir—While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture For several months past I have used it in my family and in dyspepsia, loss of appetite, dizziness and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

NEVER FAILING REMEDY

Holloway's Ointment.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING

Copy of a Letter from Mr Thompson Chemist, Liverpool dated August 20, 1852

To Professor HOLLOWAY:

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer. About ten years ago Mr W Cummins, of Saltney Street, in this town was thrown from his horse, whereby he received very serious injuries, he had the best medical advice at the time and was afterwards an inmate of different infirmaries yet he grew worse and at length a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly 10 years recently he began to use your Ointment and Pills which have now healed the wound strengthened his limbs and enabled him to dispense with his crutches, so that he can walk with the greatest ease and with renewed health and vigor (Signed) J THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE, WHEN ALL MEDICAL AID HAD FAILED.

Copy of a Letter from Mr Fred Draper of Keady near Gainsboro dated March 1st 1852

To Professor HOLLOWAY

Sir—Some time since one of my children was afflicted with dreadful eruptions over the body and limbs I obtained the advice of several eminent Surgeons and Physicians by all of whom the case was considered hopeless At length I tried our Ointment and Pills and without exaggeration the effect was miraculous for by persevering in their use all the eruptions quickly disappeared and the child was restored to perfect health

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved I also shall be happy to testify the truth of this to any enquirer (Signed) J FRED Draper

CERTAIN REMEDY FOR SCORBUTIC HUMORS— AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG.

Copy of a Letter from Messrs Walker and Co, Chemists Bath

To Professor HOLLOWAY

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighborhood, we may mention that of an old lady living in the village of Preston about five miles from this city She had ulcerated wounds in her leg for many years and latterly these increase to such an alarming extent as to defy all the usual remedies her health rapidly giving way under the suffering she endured In this distressing condition she had recourse to your Ointment and Pills and by the assistance of her friends was enabled to persevere in their use until she received a perfect cure We have ourselves been greatly astonished at the effect upon so old a person she being above 70 years of age We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter

A private in the Bath Police Force also has been perfectly cured of an old scorbutic affection in the face, after all other means had failed He states that it was entirely by the use of your Ointment, and speaks loudly in its praise.

We remain dear sir Yours faithfully

Self Acquired Fame!

DR JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine notwithstanding it has never had the advantage of newspaper publicity has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract perfectly safe to be administered even to the most delicate child and alike astonishing and satisfactory in its effects upon man or beast To the unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise it a radical cure of Coughs Colds Asthma Bronchitis Whooping Cough Influenza, Spitting of Blood and all Lung Complaints Chronic Diarrhœa, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Chapped Hands Bruises Burns, and all descriptions of wounds are magical Persons troubled with Cramp in the Stomach Side or Bowels, Sore Throat Piles &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendations as it has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica — The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a distressing cough and bleeding at the lungs and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption My legs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured and have since been able to labor every day I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN I ATKINS

Brewer, Sept. 29, 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles, my leg was limbered and strengthened and for a number of years I have been able to use it about as well as the other I consider myself indebted to the use of your liniment through the blessing of Providence for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured
